

Aeonium spp.

Aeonium species (sometimes sold erroneously as Crassula phytensis) is a miniature Aeonium forming attractive shrublets with multitudinous rosettes of small rounded bright green leaves. Yellow star-shaped flowers in late winter and spring. Protect from frost. Provide filtered light; hardy to 32F; to 6" + tall. Water thoroughly when soil is dry.

Coloque en luz filtrado; crece a 6" + de alto; resistente hasta 32F. Rieguela abundantemente cuando este seco, y protéjalo de las heladas.
